

REMARKS/ARGUMENTS

The collapsible cargo container application was submitted on October 20, 2003 to claim the benefit of U.S. Provisional Application No. 60/451,503 filed on March 3, 2003, which mistakenly assumed there was no existing patent involved in its subject matter. Later on the applicant found out that number of U.S. patents had been published regarding to this subject matter.

In order to reflect those existing patents, the following modifications have been made regarding the specification: <1> Paragraphs [1], [3], [4], [5], [223], [228], [229], and [297] are amended. <2> The previous claims 1-7 are amended, and new claims 8-12 are added.

Respectfully submitted,

By
